Do you like mushrooms? If the answer is yes, here's another question. Would you like to grow mushrooms? If that answer is also yes, you're in luck because we are offering a workshop on growing shiitake mushrooms. It's fun and easy to cultivate edible mushrooms using logs, stumps, and the moist shade of your wooded property or the shaded back of the garage. In this workshop, you will not only learn how to cultivate mushrooms but how to select wood, location, tools and supplies. We will present the whole process of drilling, plugging, waxing, stacking, waiting and forcing. You'll learn about other mushrooms you can grow and receive information on suppliers for plug spawn.
