

### **SAFETY TIPS**

- Propane and charcoal BBQ grills should only be used outdoors.
- The grill should be placed well away from the home, deck railings and out from under eaves and overhanging branches.
- ))) Keep children and pets away from the grill area.
- Note that the proof of the p
- >>> Never leave your grill unattended.

#### **CHARCOAL GRILLS**

- There are several ways to get the charcoal ready to use. Charcoal chimney starters allow you to start the charcoal using newspaper as a fuel.
- If you use a starter fluid, use only charcoal starter fluid. Never add charcoal fluid or any other flammable liquids to the fire.
- Note that the control of the reach of children and away from heat sources.
- There are also electric charcoal starters, which do not use fire. Be sure to use an extension cord for outdoor use.
- When you are finished grilling, let the coals completely cool before disposing in a metal container.

## PROPANE GRILLS

Check the gas tank hose for leaks before using it for the first time each year. Apply a light soap and water solution to the hose. A propane leak will release bubbles. If your grill has a gas leak, by smell or the soapy bubble test, and there is no flame, turn off the gas tank and grill. If the leak stops, get the grill serviced by a professional before using it again. If the leak does not stop, call the fire department. If you smell gas while cooking, immediately get away from the grill and call the fire department. Do not move the grill.

### **FACTS**

- ! In 2004–2008 fire departments responded to an average of 7,700 home fires involving grills, hibachis or barbecues, including 4,500 outside fires and 3,200 structure fires.
- 1 July was the peak month for grill fires in 2004–2008.
- More than half of home grill structure fires begin on either a courtyard terrace or patio, or an exterior balcony or open porch.
